

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Edgar Jannotta  
DOCKET NO.: 03-20263.001-R-2  
PARCEL NO.: 05-08-400-026-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Edgar Jannotta, the appellant, by attorney Mitchell L. Klein of Schiller, Klein & McElroy, P.C. of Chicago and the Cook County Board of Review (board).

The subject property consists of a 47-year-old, one-story single-family dwelling of masonry construction containing 3,349 square feet of living area and located in New Trier Township, Cook County. The residence contains four full bathrooms, a partial basement, air conditioning, a fireplace and a three-car garage.

The appellant's counsel appeared before the PTAB and submitted evidence claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered eight suggested comparable properties located between a quarter to three and one half miles of the subject. These properties consist of one-story single-family dwellings of masonry, stucco or frame and masonry construction and range in age from six to 49 years. The comparables have three, four or five bathrooms with some half-baths and with full or partial basements, some finished. Seven homes are air-conditioned and all have fireplaces. All properties have two or three-car garages. The comparables contain between 2,268 and 7,384 square feet of living area and have improvement assessments ranging from \$57,391 to \$202,753 or from \$17.69 to \$47.22 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$239,087, or \$71.39 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered a property characteristic printout detailing the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 83,896  
IMPR. \$166,104  
TOTAL: \$250,000

Subject only to the State multiplier as applicable.

subject. The board disclosed that the subject property was purchased for \$3,225,000 on August 30, 2000. The board offered no further information or evidence. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The PTAB finds most of the appellant's eight comparables are similar to the subject but with variations in location, age construction and living area. The board submitted no equity evidence to support the subject's current assessment aside from the purchase price. The properties found similar to the subject have improvement assessments ranging from \$17.69 to \$47.22 per square foot of living area. The subject's per square foot improvement assessment of \$71.39 is above the range established by these properties. After considering the purchase price and the differences in the comparables' location, construction, age and living space when compared to the subject property, the Property Tax Appeal Board finds that the evidence is sufficient to effect a change in the subject's current assessment.

As a result of this analysis, the PTAB finds the appellant did adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
